CRUISE NOTICEBOARD

NAVIGATE APP - Everything you need, at your fingertips

To help reduce contacts, we're inviting you to use our onboard app Navigate on our kiosks or via your mobile device for free. Simply connect your device to the ship's Wi-Fi network and enter the address 'navigate.tui' into your browser. Navigate allows you to manage your cruise experience - from reporting a problem to Reception or ordering room service to booking your dining experiences, activities and excursions. You'll also find all the information you need about the ship, entertainment programme, facilities and destinations. If you need help with Navigate, come and speak to Alice between 16.00 and 18.00 at the Guest Experience desk in the Reception area.

Emergency Drill - My Muster

Under international maritime law all guests must complete an emergency drill, known as a Muster Drill, before we sail. To make this easier and avoid the traditional large gatherings, we've created MyMuster. You'll find our reimagined drill, along with instructions on how to complete it, in Navigate. Watch the video, check the schedule for your muster time and visit your muster station where one of the crew will check you've completed the steps and scan your cruise card. Please make sure this is one of the first things you do - simple!

Our Menus Have Gone Digital

We've moved all our bar and restaurant menus to Navigate. Connect your smartphone to the Wi-Fi network for free, open the camera app on your smartphone, hold it over the QR code and wait for the notification to appear. Click the link which takes you to the full selection of menus on Navigate.

Something Not Quite Right?

We hope you'll enjoy your cruise with us but if there's anything that's not quite right, please let us know so we can rectify it for you. You can report any issues - big or small - by using the Report a Problem section under My Cabin in Navigate. You'll then be able to track our progress too, we'll update Navigate when we've solved your problem.

Going Ashore

In line with current guidance, you'll only be able to get off the ship if you're booked on a Marella Cruises excursion. To view all available excursions, please visit our Excursions section on Navigate or visit our Destination Services team on Deck 5.

SHORE EXCURSIONS

Discover Your Ports of Call from the Comfort of Cabin...

We understand that your holiday time is precious, so here at Destination Services we've made it even easier for you to find out about the highlights in the ports we visit. So tune in to Channel 5 on your cabin TV to watch the port showcase videos and see what we've got lined up. Spot something you like? Log in to Navigate on your phone or tablet and you can book your excursions without even leaving your cabin. Got a few more questions? Pop to Deck 5 to speak to us, at Destination Services or call us from your cabin phone on 7305, during our opening hours advertised in the Cruise News. Just so you know... pre-booked excursion tickets will be in your cabin. Some excursions have limited availability, book early to avoid disappointment.

Have a 'Wheeley' Good Time This Cruise...

Did you know that we have our very own onboard fleet of bicycles? You can choose from one of our top-of-the-range push bikes, or try out an electric one, which comes with a built-in motor to give your pedalling power a boost. We've got a guided bike tour in all of our ports of call this cruise. Pop along and see your Bike Guides Jay & Sophie next to Destination Services, Deck 5 for more information and to book. Open 12.00-20.00 today
